Mina (a.k.a. vitamina) is a researcher and performer. Her work explores leftovers from digital technology in ways of creative coding, circuit bending, hardware hacking, and audio visual performance. Her in progress thesis investigates electronic waste and transforming it to a musical instrument in order to create new value and performance of dead gadgets. Her practice based research embraces sociology, digital media studies, interactive media design and human computer interaction. She is a member of experimental sound project 'fruit from the forest'. Born in Busan, South Korea, currently based in Groningen, Netherlands.

### EDUCATION

---

#### **Frank Mohr Institute; Groningen, Netherlands**
